Ein Vered

About me

I am a third-year Computer Science student at Ruppin Academic Center, seeking a student position as a Full-Stack Developer. I am a dedicated and quick learner with strong self-learning abilities and a high sense of responsibility.

Education

Oct 2022 – present

Ruppin Academic Center- BSc Computer Science

- average of 90
- Specialization: **Application Development**

Experience

2024 – Present **IT Professional at EFS**

- Providing technical support and IT solutions for company operations
- Implementing and deploying Priority (ERP) financial information system

2018 – 2019 **Year of Service (Volunteer Year) - on behalf of the Kibbutz Movement**

- Volunteered with at-risk youth before military service
- Developed responsibility, problem-solving, and teamwork skills

2019 – 2021 **Military Service – Israeli Air Force Operations Center**

- Served at the Air Force Operations Center as an Operations Room Worker
- Managed emergency events and high-pressure situations

Skills

- Programming Languages - C# Java, JavaScript, Python, C
- Database Management - ERD, SQL
- Operating Systems - Linux
- Frameworks and Libraries – React
- Certificate of Completion for the 'AWS Cloud Practitioner Essentials' course by Amazon, showcasing expertise in cloud computing and AWS technologies.

Projects

- Developed various full-stack projects as part of my studies and independent learning, integrating modern technologies and best practices.
- Demonstrated expertise in application development, database management, and cloud computing.
